

# THE PLANET DEEP SCAN

STRANGE. DARK. EVOLVING. UNSETTLING. WEIRD.  
THESE SIGNALS NEED TO BE EXPLORED

## THE PLANET DEEP SCAN

VINTAGE / LO-FI / SCI-FI / DARK AMBIENT KONTAKT LIBRARY

by Atom Hub

*The Atom Hub spaceship has returned to the Planet.  
This time the Planet has been explored with much more sensitive gear: detectors,  
telescopes and scanners. What they have found will keep scientists busy for years.*

***Strange. Dark. Evolving. Unsettling. Weird.***

*The wide spectrum of data obtained has introduced us to an everchanging,  
exotic world unlike others.*

*A vast amount of controversial data and weird signals of all sorts have been  
collected, and categorized with great effort, in order to find the answers to all those  
questions previous researchers posed...*

*Is IT communicating with us? Is IT... living? Who are THEY?  
Is there ANYBODY at all?*

*Help the scientists to find out. Help them to understand.*

*Try to communicate... maybe what is needed is... music.*

## Details

- 24 bit / 44,1 kHz wav format
- 1,2 GB installed
- 22 basic patches consisting of 4 layers
- 74 patches derived from basic ones
- 30 multi patches
- custom made looped sound textures using hardware synths and fx units
- great for creating unusual soundscapes, atmospheres, evolving audio textures
- strong vintage / lo-fi / sci-fi approach
- Flanger, Phaser, EQ, Filter, Stereo Limiter, Delay, Reverb, Attack, Release controls
- Kontakt 5.5.1.451 and up full version required

## About The Planet Deep Scan

Immerse yourself in the vintage sci-fi audio world of The Planet Deep Scan, successor of the acclaimed ambient library, The Planet! In contrast to the previous sample collection and its mostly dreamy and mellow approach, The Planet Deep Scan focuses on a dark, textural content aimed at easy, intuitive creating of evolving sound textures and soundscapes in a vintage, lo-fi fashion. An ideal tool to set the dark atmosphere, for creating surreal, unsettling audio backgrounds, providing a "bed" for your composition. Dark spaceship corridors, weird signals, noises of unknown apparatuses, signs of alien lifeforms... it all can be found inside this library, whose ambition is to take you out there into space and let you explore the... unknown and incomprehensible.

All sci-fi lovers are very welcome and warmly greeted!

A lot of original mostly synth samples effected and merged in various hardware and software units were used in making this library. All samples are tuned and looped, destined to play long, slow backgrounds most of all, but you can find a few which can be used in a more "solo" manner.

All sounds are of a dark, gloomy nature, with occasional cracks, hiss and hum, so everybody looking for similar kinds of audio samples will be pleased.

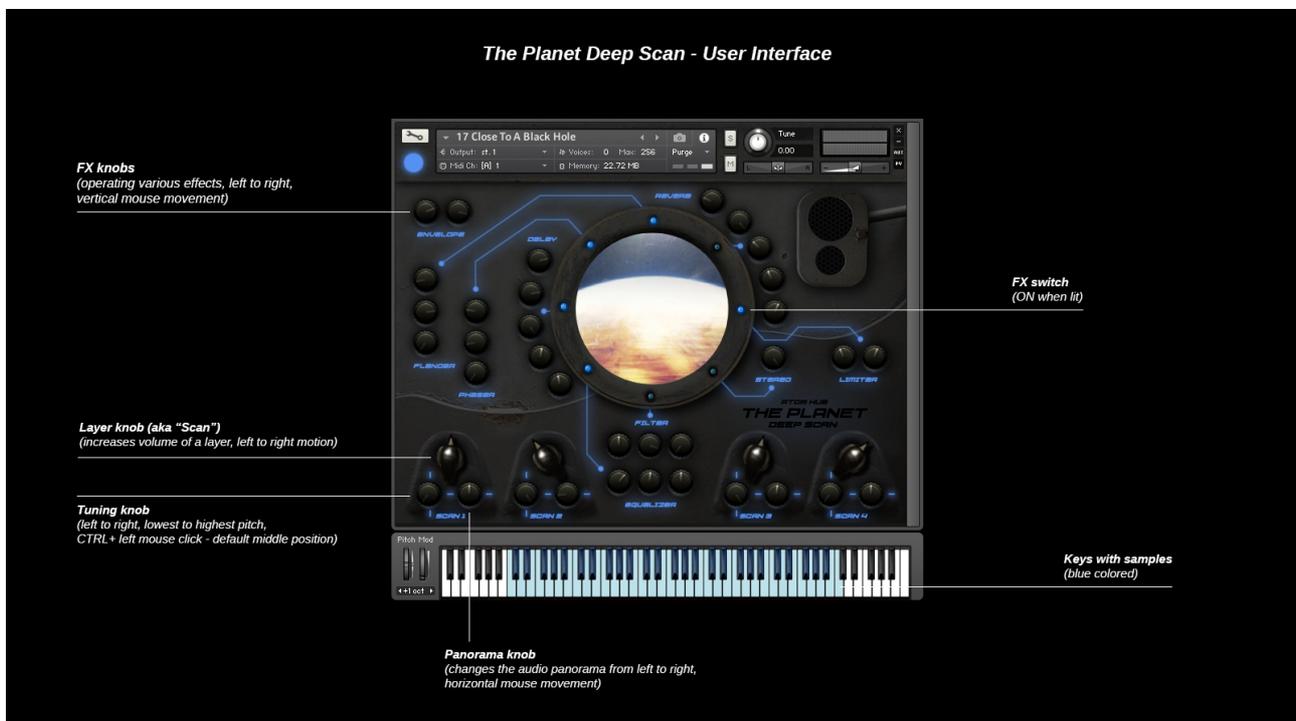

## What is what and how to use it

This library contains 22 patches consisting of 4 audio layers. I call them "Scans". Scan 1 and 2 are of harmonic, tonal nature, scan 3 and 4 are sounds of unidentified nature – effects, noises, weird signals. Each of them has its own dedicated volume knob and contains an audio sample, which is silent when knob is turned fully to the left and gradually gets louder when turned to the right. For complete info, please look at the picture below explaining the user interface.

Note also, that hovering your mouse cursor over each knob or switch (the little blue dots) will display a help text in the bottom part of the window (if you have the "info feature" - (i) pictogram - activated in Kontakt) Be also aware of the possibility of setting any knob to its default position by pressing CTRL and clicking with your mouse cursor over it (PC users) or command-clicking (MAC users).

## General User Interface – Effects

1. EQUALIZER – Low, Mid and High frequencies adjusting
2. ENVELOPE (Attack and release) to adjust start and length of a sample
3. FILTER – Cutoff, Frequency and Band Width set up
4. STEREO – increases or decreases the stereo panorama
5. FLANGER – giving sound some movement
6. PHASER – phasing, twirling the signal
7. DELAY – echoes signal almost endlessly
8. REVERB – well, just imagine a world without reverb
9. LIMITER – last help, if too loud :-)

## PATCHES

The Planet Deep Scan consists of 22 main patches - stored in the BASIC folder. Each of these patches consists of 4 original sounds. Every patch contains a different set of samples. Load and explore these patches, alter them and save the results in the USER folder to store them safely, preserving original patches intact. In the DERIVED folder you will find 74 additional patches derived from the patches of the BASIC category - these can immediately find a place in your production, or serve as an inspirational starting point for creating your own soundscapes. Then you will find another 30 multi patches in MULTI folder – these are combinations of more than one patches, giving you even more sound designs to use immediately. Every patch has a unique name, which loosely associates with the character of its sample set, or describes loosely what it sounds like to help you choose the right one to work with.

## BASIC

-  01 IRONATANEA
-  02 NOCTURIUM
-  03 MEMOROINE
-  04 ENEMEALIS
-  05 MOURNION
-  06 ORALIA
-  07 REACTORIO
-  08 YELLEUM
-  09 OVARIA
-  10 FRANTICA
-  11 SELENITAS
-  12 TERRANITE
-  13 ASANATEO
-  14 NARRATIUS
-  15 INTOXICA
-  16 SEDATEUM
-  17 LIVELINE
-  18 ARCTICAE
-  19 WARNEALIS
-  20 LANDEUM
-  21 ECHOALIA
-  22 MIRACULIS

## DERIVED

- 01 Drowned In Hydrogen Tank
- 01 Projections In A Helmet
- 01 Through Frozen Windows
- 02 Decomposition Of Light
- 02 Possible Microbial Life
- 02 Sleeping Systems
- 03 Crawling Radiation
- 03 Deaf Scanners
- 03 Empty Frequencies
- 04 Cameras Are On
- 04 Properly Archived Data
- 04 Traces Of Oxygen
- 05 Botanic Lab
- 05 Calculating In Progress
- 05 Error Data
- 06 Almost Clear Signal
- 06 Electrical Systems
- 06 Midnight Light From A Holodeck
- 07 Cryodreams
- 07 Dreams Of A Bamboo Forest
- 07 Space Foam
- 07 Summer Night In Space
- 08 Bells Of 13th Moon
- 08 Chords Of Radium Tubes
- 08 Lab Of Dr Yoshida
- 09 Ghosts Of Jewelry
- 09 Mist Chimes
- 09 Nightmares Of Mr Hammond
- 09 Ventilation Microorganism
- 10 Frozen Interior
- 10 Gamera Caught On Camera
- 10 Hallway Hum
- 10 Return Of The Mothership
- 11 Infusion
- 11 Spraying Is Necessary
- 11 White Room
- 12 Electromagnetic Fields
- 12 Polar Caps
- 12 Wind Fields
- 13 Flowing With The Data River
- 13 Fluteano
- 13 Metallic Brain
- 14 Brain Cells Excited
- 14 Crazy Bell Tower
- 14 Parallel Universe Bell Tower
- 14 Siren Surprise
- 14 Star Dust Pearls
- 14 Trapped By A Magnet
- 15 Nebulae
- 15 Old Radio Transmission
- 15 Result-Craziness
- 15 Space Odyssey
- 16 Data Smoke
- 16 Giant Planet In Sight
- 16 We Will Land Here
- 17 Caves
- 17 Cities In Space
- 17 Close To A Black Hole
- 17 Event Horizon
- 18 Dawn On The Orbit
- 18 Messages In The Light Bottle
- 18 Rays Behind The Window
- 19 Inserting Codes
- 19 Playful Photons
- 19 Storage Area
- 20 Melting Metals
- 20 Sacred
- 20 Under The Ice
- 21 Dust In The Containers
- 21 Fields Of Midnight Life
- 21 Signal Ghosts
- 22 Flying Organisms
- 22 Solar Winds
- 22 Unknown Lifeform Detected

## MULTI

- 1000 Years Long Flight
- Air From The Shaft
- Alien Jungle
- Blade Tuner
- Centipedes
- Cry At The End Of The Universe
- Deep In Hydrogen Tank
- Desert World
- Everything Oscillates
- Frozen Ship
- Hanging From The Ceiling
- Hyperspace Wedding
- Chinese Part Of The Station
- Chords Of Fate
- In A Steel Kingdom
- Lazy Probe
- Loneliness Of A Frog In Space
- Mining Ships Approaching
- Neuron Lethargy
- Night On The Surface
- One Finger Is Enough
- Radiation Detected
- Repairs
- Resemblance Of Life
- Shining Orbs In Dark Corridors
- Silence Of The Lab
- South Pole Winds
- That Must Be Snow
- The Stuff Is Living
- Zone Of No Return

Enjoy The Planet Deep Scan !

Thank you heartily for your support. Please don't resell, upload or duplicate the library or its parts in any form.
