AUDIOMODERN GLITCHEE #1, #2 & #3 MANUAL

BASIC MANUAL

THANK YOU FOR BUYING

the Glitchee. Please feel free to contact us at audiomodern@mail.com

HOW TO INSTALL

To install, unzip and drag the instrument-folder to any hard drive. Launch Kontakt and load the .nki instruments.
Please do not move any file!

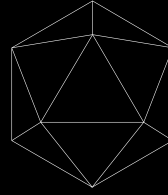

DESCRIPTION

Glitchee [KONTAKT Instrument] is a triple glitch & cuts drum machine(s) module.

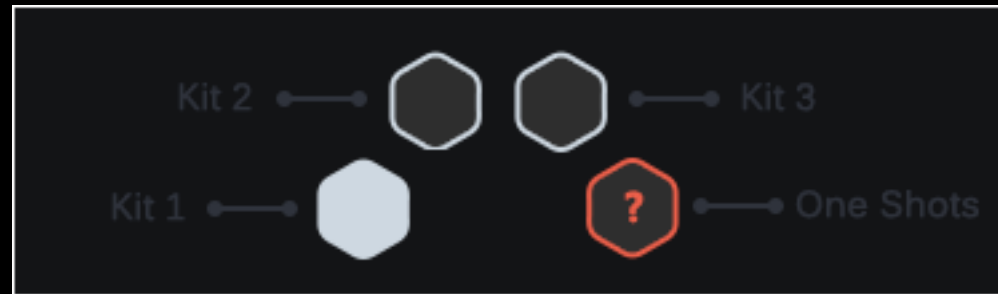

A step sequencer & groove generator with six sound categories on each of the three kits which is best suited to give your music production a contemporary percussive fundament.

You can easily create groovy electronic patterns with crystal sound quality or add-on loops built out of bits, cuts, glitches and blips!

Features three unique glitch kits on a flexible step sequencer module.

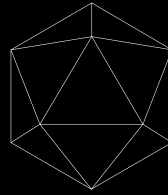

The Instrument contains 3 different "Drum kits"
You Can select - enable each "Kit" here

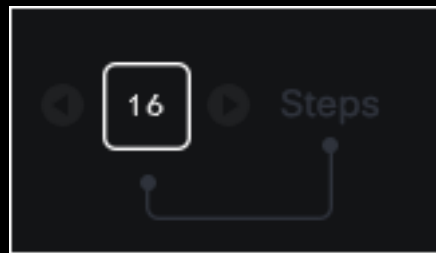

Solo, Mute, Volume and Clear functions in all of the 6 tracks of the selected "kit"

Much like other drum machine modules, you can define up to six drums, where you can select/change its steps length

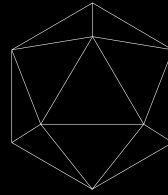

As well as the desired time signature

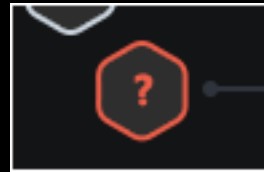

On the display you will see the current location of hits for that drum, with 4 different colours corresponding to 4 different sounds on each of the six channels . You can draw a pattern here as you like.

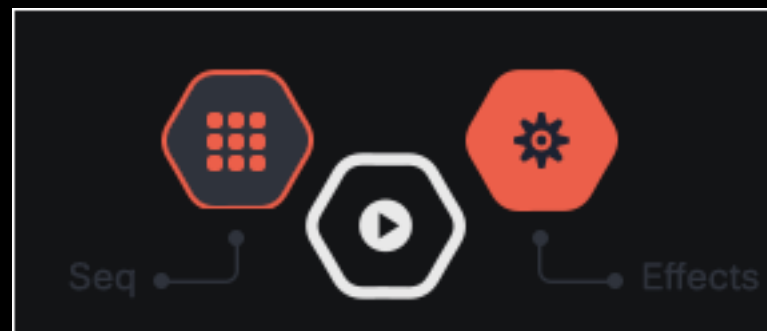

There is a "Random" button, pressing that will apply a random sequence applied to all of the Six channels.

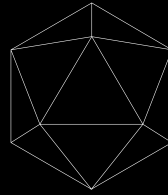

A little indicator to show the current loop position in real time

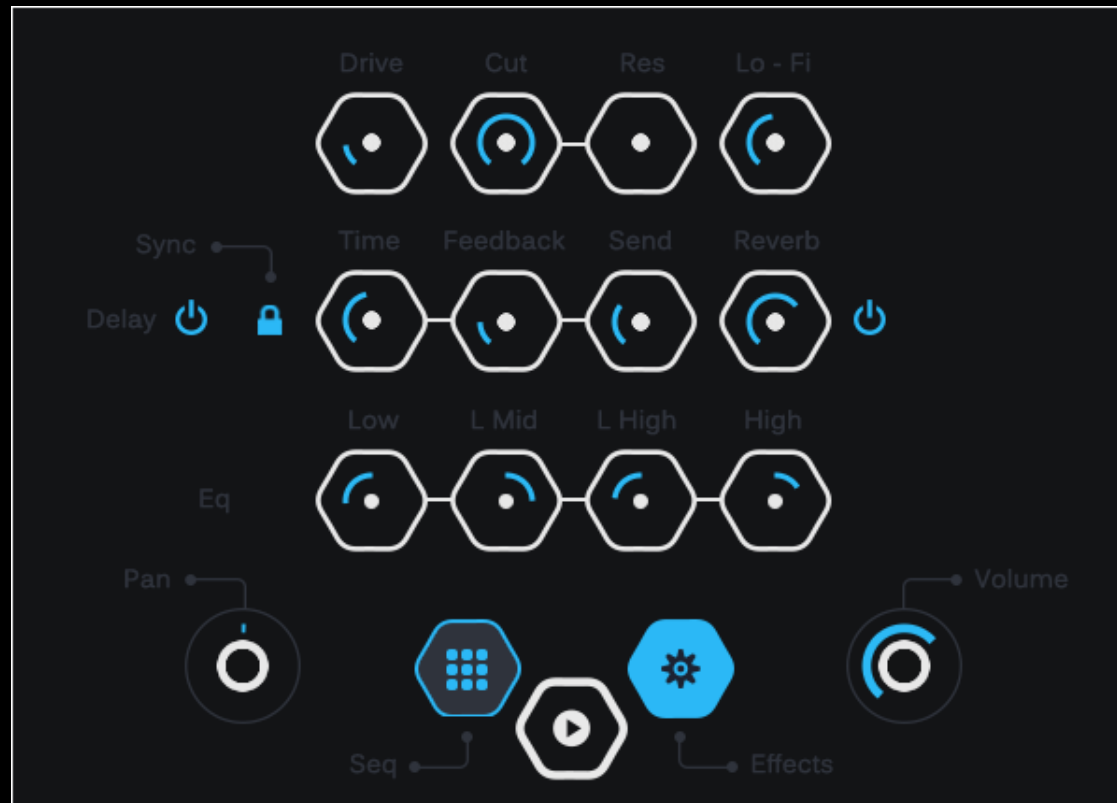

Pressing the "Effects" button you can jump on the second page of the instrument that allows further/detailed sound tweaking.

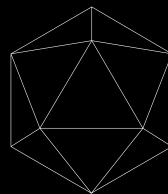

On the Effets page you will find:

- Drive, Cutoff-Resonance, Lo-Fi
- Delay with Sync function, time, feedback, send. Convolution Reverb
- A four band equalizer
- Master Pan and a Master Volume

SUPPORT

If you have a problem installing or using Glitchee #1, #2 or #3 , or would like advice
on

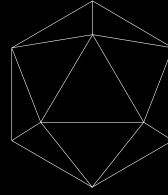

how to use it, feel free to contact us in any of the following ways:

E-mail: audiomodern@mail.com | Website: www.audiomodern.com

Our first response is often a request for more information. Therefore, if you do e-mail us with a technical problem, please make sure to provide as much information as possible, including: Mac or Windows, OS version, library version, Kontakt version and host (Logic, Cubase, etc).

Again, thanks for supporting our work and we hope you enjoy Glitchee!
Happy composing!
